## General Marking Principles for National 5 History

*This information is provided to help you understand the general principles you must apply when marking candidate responses to questions in this Paper. These principles must be read in conjunction with the detailed marking instructions, which identify the key features required in candidate responses.*

- (a) Marks for each candidate response must always be assigned in line with these General Marking Principles and the Detailed Marking Instructions for this assessment.
- (b) Marking should always be positive. This means that, for each candidate response, marks are accumulated for the demonstration of relevant skills, knowledge and understanding: they are not deducted from a maximum on the basis of errors or omissions unless the candidate has not carried out the correct process.
- (c) If a specific candidate response does not seem to be covered by either the principles or detailed Marking Instructions, and you are uncertain how to assess it, you must seek guidance from your Team Leader.
- (d)
  - i. For credit to be given, points must relate to the question asked. Where candidates give points of knowledge without specifying the context, these should be rewarded unless it is clear that they do not refer to the context of the question.  
*eg Some soldiers on the western front suffered from trench foot as they were unable to keep their feet dry. (1 mark for knowledge, even though this does not specify that it relates to the Scottish soldiers)*
  - ii. There are six types of question used in this question paper. Each assesses a particular skill, namely:
    - A. Describe . . . (KU1)
    - B. Explain the reasons why . . . (KU2)
    - C. To what extent . . . (KU3)
    - D. Evaluate the usefulness of Source . . . (SH1)
    - E. Compare the views of Sources . . . (SH2)
    - F. How fully does Source . . . (SH3)
  - iii. For each of the question types (in ii above), the following provides an overview of marking principles and an example of their application for each question type.

### **A Questions that ask candidates to *Describe* . . . (5 or 6 marks)**

Candidates must make a number of relevant, factual points. These should be key points. The points do not need to be in any particular order. Candidates may provide a number of straightforward points or a smaller number of developed points, or a combination of these.

#### **Up to the total mark allocation for this question of 5 or 6 marks:**

- 1 mark should be given for each accurate relevant point
- a second mark should be given for any reason that is developed, as in the following example

**Question:** Describe the Liberal Welfare Reforms introduced between 1906 and 1914.

*The Liberals brought in a number of welfare reforms that were aimed at helping the poorest people in society (1 mark for knowledge). They were particularly trying to help children and the elderly (a second mark for development).*

### **B Questions that ask candidates to *Explain the reasons why* . . . (5 or 6 marks)**

Candidates must make a number of points that make the issue plain or clear, for example by showing connections between factors or causal relationships between events or ideas. These

should be key reasons and may include theoretical ideas. There is no need for any evaluation or prioritising of these reasons. Candidates may provide a number of straightforward reasons or a smaller number of developed reasons, or a combination of these.

**Up to the total mark allocation for this question of 5 or 6 marks:**

- **1 mark** should be given for each accurate relevant reason
- **a second mark** should be given for any reason that is developed, as in the following example

**Question:** Explain the reasons why the Liberals introduced their social welfare reforms between 1906 and 1914.

*The Liberals introduced a variety of reforms in order to help the poorest in society as it had been shown that this group was suffering particular hardships. (1 mark for a reason) Booth had identified that over 35% of Londoners were living in poverty. (a second mark for developing a reason)*

### **C Questions that ask *To what extent . . .* (8 marks)**

Candidates must make a judgement about the extent to which different factors contributed to an event or development, or to its impact. They are required to provide a balanced account of the influence of different factors and come to a reasoned conclusion based on the evidence presented.

Up to **5 marks** should be given for relevant, factual, key points of knowledge used to support factors: with **1 mark** given for each point. **If only one factor is presented, a maximum of 3 marks should be given for relevant points of knowledge.**

Up to **3 further marks** should be given for presenting the answer in a structured way and coming to a reasoned conclusion, as follows:

- **1 mark** for the answer being presented in a structured way, with knowledge being organised in support of different factors (at least two factors must be assessed)
- **1 mark** for a valid judgement or overall conclusion
- **1 mark** for a reason being provided in support of the conclusion

**Question:** To what extent was genuine concern for the poor the main reason why the Liberals introduced their welfare reforms between 1906 and 1914?

*Some historians think the Liberals passed their welfare reforms to help the poorest people. The National Insurance Acts helped keep workers out of poverty. (1 mark for knowledge) The introduction of old age pensions meant that families didn't have the burden of supporting the elderly. (1 mark for knowledge)*

*However, other historians think they were more concerned with fighting off the Labour Party. (1 mark for balance) Cutting the working day for miners was simply a way of buying their support. (1 mark for knowledge) The National Insurance Acts were targeted at working men who might be likely to support the Labour Party if they felt the Liberals didn't listen. (1 mark for knowledge)*

*Others believe it was about national efficiency. Churchill and Lloyd George argued that Britain needed its people to be fitter to be able to compete. (1 mark for knowledge) They were shocked by the state of the men who volunteered during the Boer War and wanted to solve this problem. (1 mark for knowledge)*

*Overall, the Liberals were most concerned about helping the poor. (1 mark for a judgement) Most of their reforms were directed at helping the poor and it is clear that helping people out of poverty was what motivated them most. (1 mark for supporting a judgement)*

### **D Questions that ask candidates to *Evaluate the usefulness of a given source as evidence of . . .* (5 or 6 marks)**

Candidates must evaluate the extent to which a source is useful by making separate evaluative comments on evidence such as the author, type of source, purpose, timing, content and omission.

**Up to the total mark allocation for this question of 5 or 6 marks:**

- a maximum of **4 marks** can be given for evaluative comments relating to author, type of source, purpose and timing
- a maximum of **2 marks** may be given for evaluative comments relating to the content of the source
- a maximum of **2 marks** may be given for evaluative comments relating to points of significant omission

**Example response:**

*Source A is useful as it was written in 1910 which was at the time when the Liberals were introducing their main reforms. (1 mark for timing) It was written by the Prime Minister so it may be less useful as he has a personal interest in making the reforms sound successful. (1 mark for authorship) It says "these reforms will make the lives of the poor infinitely better" which shows evidence of bias and makes it less useful. (1 mark for content) On the other hand it also says that the National Insurance Act would benefit working men by giving them unemployment benefits which is accurate so makes the source more useful. (1 mark for content) But it is less useful as it fails to mention that women would not really be covered by this Act. (1 mark for omission)*

**E Questions that ask candidates to *Compare the views of two given sources about . . .* (4 marks)**

Candidates must interpret evidence and make direct comparisons between sources. Candidates are expected to compare content directly on a point-by-point basis.

**Up to the total mark allocation for this question of 4 marks:**

- A simple comparison will indicate what points they agree or disagree about and should be given **1 mark**. A developed comparison will be supported by specific references to each source and should be given **2 marks**.

**Example responses:**

*Sources A and B agree that King Charles I was an ineffective ruler. (1 mark for a simple comparison)*

*Source A agrees with Source B where it says "the king failed to maintain control of parliament" and Source B says "King Charles provoked his own people to rebel". (a second mark for a developed comparison)*

*The sources disagree about how far Charles I created his own problems. (1 mark for a simple comparison)*

*The sources disagree about how much Charles I's problems were his own making, where Source A thinks Charles was a disaster as king, while Source B feels he was generally not bad but made some important mistakes. (2 marks in total for one developed comparison)*

**F Questions that ask *How fully does a given source explain/describe . . .* (5 or 6 marks)**

Candidates must make a judgement about the extent to which the source provides a full description/explanation of a given event or development.

**Up to the total mark allocation for this question of 5 or 6 marks:**

- candidates should be given **up to 3 marks** for their identification of points from the source that support their judgement; each point from the source should be interpreted rather than simply copied from the source
- candidates should be given **up to 4 marks** for their identification of points of significant omission, based on their own knowledge, that support their judgement

- a maximum of **2 marks** may be given for answers in which no judgement has been made or which refer only to the source

### Example response:

*Source B explains the reasons why the Liberals introduced their reforms fairly well (evidence of judgement) as it mentions their growing fear of the Labour party. (1 mark, point from source) It mentions specifically the Welsh MPs such as Lloyd George who might lose their seats. (1 mark, point from source) It also deals with the raising of working class expectations which the new Labour Party might bring. (1 mark, point from source) However, it fails to mention (evidence of judgement) their genuine concern for the masses which motivated many MPs. (1 mark, recall/omission) The poor state of health among volunteers for the Boer War had shocked many of them into demanding changes. (1 mark, recall/ omission) Others, such as Churchill, felt that poverty was holding back Britain's competitiveness as a nation and must be changed. (1 mark, recall/omission)*

### Marking codes to be used for Question Paper

✓ - indicates a relevant piece of evidence/knowledge has been credited (MI number should also be used)

DP - indicates a developed point has been credited

R - indicates that recalled knowledge has been credited (useful in SH3)

S - indicates that evidence from the source has been correctly selected/credited (useful in SH3)

X - indicates irrelevance (this section of the answer should be underlined as well)

SE - indicates a serious error (this section of the answer should be underlined as well)

NR - indicates no relevant recalled knowledge has been presented (particularly useful in SH3)

P - indicates that the required process is apparent (useful in KU2)

WP - indicates that the required process is suspect or weak (useful in KU2 and SH1)

NP - indicates that the required process is non-existent (useful in KU2 and SH1)

B - indicates that balance has been provided/different factors have been presented (useful in KU3)

NB - indicates that no balance has been provided/only one factor has been presented (useful in KU3)

AUT - indicates an evaluative comment has been made on the authorship of the source (useful in SH1)

TYP - indicates an evaluative comment has been made on the type of source (useful in SH1)

PUR - indicates an evaluative comment has been made on the purpose of the source (useful in SH1)

TIM - indicates an evaluative comment has been made on the origin/timing of the source (useful in SH1)

CON - indicates an evaluative comment has been made on the content of the source (useful in SH1)

SOM - indicates a point of significant omission has been made in relating to the source (useful in

SH1)

SC - indicates a simple comparison has been made (useful in SH2)

DC - indicates a developed comparison has been made (useful in SH2)

OC - indicates an overall comparison has been made (useful in SH2)

NC - indicates that an attempted is not valid (useful in SH2)

J - indicates that the required judgement has been made (useful in KU3 and SH3)

SR - indicates that a reason has been provided in support of the required judgement (useful in KU3)

WJ - indicates that the judgement is suspect or weak (useful in KU3 and SH3)

NJ - indicates that the required judgement has not been made (useful in KU3 and SH3)

OS - indicates that the candidate has just provided an overall summary as a conclusion (useful in KU3)

REP - indicates that the candidate has repeated a point already made previously in their answer (useful in every question type)
