SECTION 1 — ARGUMENTS IN ACTION — 20 marks

Attempt ALL questions

1. (a) The table below gives definitions of key terms in philosophy. Complete the table by writing the term that each definition refers to.

	Definition	Key term	
(i)	A sentence that is either true or false.		1
(ii)	A common error in reasoning.		1
(iii)	A type of argument in which the truth of the premises guarantees the truth of the conclusion.		1
(iv)	A set of statements that can be used to persuade.		1
(v)	A reason given to support the central claim of an argument.		1

- (b) Identify the **two** valid arguments in the following list by ticking (✓) the appropriate boxes.

2

- If you look at a screen for too long your eyes will go square.
Your eyes have gone square.
So you have looked at a screen for too long.
- If you look at a screen for too long your eyes will go square.
You have looked at a screen for too long.
So you have got square eyes.
- If you look at a screen for too long your eyes will go square.
You don't have square eyes.
So you have not looked at a screen for too long.
- If you look at a screen for too long your eyes will go square.
You haven't looked at a screen for too long.
So you don't have square eyes.

1. (continued)

(c) (i)

Explain why this is not an argument in the philosophical sense.

3

1. (c) (continued)

Zara:

(ii) Explain the false dilemma fallacy in Zara's argument.

3

1. (c) (continued)

(iv) Put the argument below into standard form:

If you want a new hobby then you should try metal detecting. It gives you the chance to learn about the history of the area, to get outside in all kinds of weather, and to meet loads of new people. Give it a go!

2. (continued)

(c) Descartes' first two arguments in the Method of Doubt are the senses argument and the dreaming argument. In the senses argument he starts to doubt the reliability of his senses.

(i) Describe Descartes' senses argument.

2

(ii) The senses argument **does not** fully undermine Descartes' confidence in knowledge gained through experience. Explain why.

2

SECTION 3 — MORAL PHILOSOPHY — 30 marks

Attempt ALL questions

3. (a) Which of the following is the best description of the Greatest Happiness Principle? 1
- The right action is the one that:
- maximises your happiness.
 - brings about the greatest good for the greatest number.
 - makes as many people happy as possible.
- (b) Which of the following is the best description of the Hedonic Calculus? 1
- it is a way of measuring the quality of happiness an action produces.
 - it is a way of working out how much happiness an action produces.
 - it is a way of determining your duty.
- (c) Which of the following would Mill say is the best description of a competent judge? 1
- someone who only enjoys higher pleasures.
 - someone who has a lot of experience of moral dilemmas.
 - someone who has experienced both higher and lower pleasures.
- (d) Which of the following is the best description of the equity principle? 1
- everyone should be treated the same.
 - everyone is of equal value.
 - everyone's happiness is of equal importance.
